19″ 1U fiber optic distribution panel, 24x SC simplex/LC duplex, slide version, empty

19″ fiber optic distribution panels are components of network infrastructure designed for installation in rack cabinets. They provide organized and secure connections for fiber optic cable fibers.

Technical specifications

19″ 1U fiber optic distribution panel, 24x SC simplex/LC duplex, slide version, empty

Height	1U
Front version	24 x SC simplex/LC duplex/E2000
Number of adapters (max)	24
Color	anthracite (RAL 7016)
Dimensions	1U / 19″ / 255 mm (depth)
Material	metal

High capacity and versatility

The panel design allows for installation of up to 48 fibers and supports various cable types, including central tube and loose tube constructions. The panel is compatible with SC simplex, E2000, and LC duplex adapters, ensuring versatile applications.

Robust construction and protection

The panel is made of metal and finished in anthracite (RAL 7016), ensuring durability and a clean, professional appearance. Front-mounted locking elements prevent accidental sliding out, while integrated fiber management holders allow cables to be neatly organized using standard cable ties.
