P3-T720000-LV

19" 3U fiber optic distribution panel, 72x SC duplex, slide version, empty

The panel is made of metal. At the rear, it features 4 to 8 openings for PG cable glands. Large clips located on the front of the panel prevent accidental sliding out. Each port for fiber optic adapters is marked with a sequential number. The drawer includes embossed holders for organizing fibers using standard cable ties. Additional components are provided to secure the main cable, preventing it from being accidentally pulled out.

Technical specifications

19" 3U fiber optic distribution panel, 72x SC duplex, slide version, empty

Height	3U
Front version	72 x SC duplex
Number of adapters (max)	72
Color	anthracite (RAL 7016)
Dimensions	3U / 19" / 255 mm (depth)
Material	metal

High capacity and versatility

The panel design allows for installation of up to 144 fibers and supports various cable types, including central tube and loose tube constructions. The panel is compatible with SC duplex adapters.

Robust construction and protection

The panel is made of metal and finished in anthracite (RAL 7016), ensuring durability and a clean, professional appearance. Front-mounted locking elements prevent accidental sliding out, while integrated fiber management holders allow cables to be neatly organized using standard cable ties.
