

WP45X4564

MOSAIC standard

6-module recessed box for drywall

6-module recessed box for drywall, part of a modular socket system. Made of plastic, it allows mounting adapters with dimensions 22.5 x 45 mm and 45 x 45 mm. The modular socket system can also be integrated with electrical sockets.

Technical specifications

6-module recessed box for drywall

Fire resistance rating	UL 94VO
Color	yellow
Operating temperature	- 5 °C/ + 45°C
Dimensions:	For frame with support 135 x 45mm (6M)
Type	In-wall box
Dimensions	178.6 x 65 x 40 mm
Material	High-quality plastic construction

MOSAIC, or one standard

The MOSAIC standard is a standardized size of 2x2 inches, or approximately 25x25 mm. Surface-mounted or concealed elements included in the so-called 'white assembly', such as LAN, electrical, and multimedia elements like electrical sockets, telecommunications adapters, or multimedia modules, are made in this standard. This standardized size ensures that the adapter will fit most supports mounted in frames as well as in trunking in surface installations.
