

CCAS-CM-K6A-STP

Category 6A STP Cable Coupler

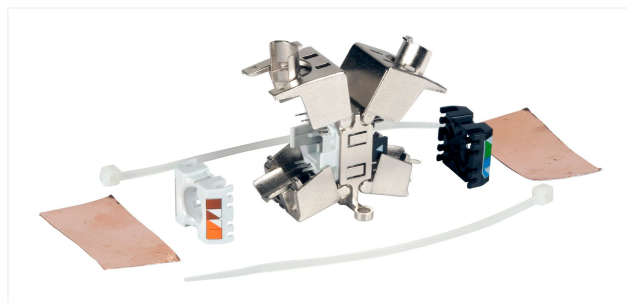

A Category 6A / Class EA cable coupler for Category 6A (and lower) twisted pair cables enables quick and reliable connection of two network cables with speeds up to 10 Gbit/s, while taking up minimal space. Installation is easy, without the need for specialized tools. The product is suitable for indoor use and in installation ducts. It is ideal for joining cables, creating end-to-end connections, and consolidation points in a structured cabling segment.

Technical specifications

Category 6A STP Cable Coupler

Category/class	6A/EA
Shielding	STP
Mounting version	Toolless
Housing body material	zinc alloy
AWG compatibility	26-22
Max. cable diameter	8,5mm

The cable coupler offers 10 Gbit/s link performance, Class EA according to ISO 11801 with minimal space requirements and simple installation without the need for special tools

The coupler features mounting tabs for surface screwing or cable tie attachment to enhance cable connection stability
