Crimping tool for BW and EZ RJ45 pass-through plugs

Multifunctional crimping tool for CCAS-RJ6A-STP-BW pass-through connectors and EZ RJ45 8P8C connectors, enabling quick and easy crimping of thicker copper cable wires.

Technical specifications

Crimping tool for BW and EZ RJ45 pass-through plugs

Material	tool steel, high-quality plastic

The cable cutting and insulation stripping function makes it a practical tool that is a must-have in any toolkit. The tool is not suitable for terminating wires in standard RJ45 connectors.
