

WP45X4521

MOSAIC standard

Support – 2-module bracket

A 2-keystone module support that's part of a modular outlet system. Made from plastic, it allows for the installation of 22.5 x 45 mm and 45 x 45 mm adapters. The modular outlet system can also be integrated with electrical sockets. The support allows snap-in insertion of M45 standard elements into surface-mounted enclosures or drywall boxes.

Technical specifications

Support – 2-module bracket

Color	black
Operating temperature	- 5 °C/ + 45°C
Mounting hole dimension	45 x 45 mm (1M)
Material	ABS plastic

MOSAIC, or one standard

The MOSAIC standard is a standardized size of 2x2 inches, or approximately 25x25 mm. Surface-mounted or concealed elements included in the so-called 'white assembly', such as LAN, electrical, and multimedia elements like electrical sockets, telecommunications adapters, or multimedia modules, are made in this standard. This standardized size ensures that the adapter will fit most supports mounted in frames as well as in trunking in surface installations.
